## Overview

The LightLEEDer programmable lighting control panel is the key to a powerful, dependable, flexible and energy efficient lighting system. LightLEEDer panels come with our new Reliant40 relays which feature a superior four contact design — the first true 40Amp lighting relay. Reliant40 relays come in 1-, 2- and 3-pole configurations in a robust breaker-style body. LightLEEDer panels range in size from 4 to 64 relay capacity and are equipped with CAT-5 RJ45 connectors for LightSync data line devices and interconnecting panels. Panels include a keyboard and LCD screen, along with USB and TCP/IP connections for easy programming with our free LightLEEDer Pro Software. Add-on modules are available for connecting to BAS, theatrical, or security systems.
